

MP 250 Electric Industrial Tow Tug

MP 250 MODEL
36V

Often imitated but never
equaled.

It's no surprise the competition envies our original design. This agile and versatile personnel carrier has it all: A narrow deck, four wheels for greater stability on rough terrain, powerful motor, rugged automotive differential and larger self-adjusting drum brakes, high-strength tubular frame, all-steel body, bolt-on front bumper and side bar protection, easy-to-access under-seat battery compartment... The list keeps going. It can also pull up to 6,000 lbs., making it a great tow tractor.
